MERICRUSHER

MERICRUSHERS for land clearing are high quality, durable and cost-effective machines for demanding professionals. The Crusher series cover a wide power range of tractors from 50 to 700 horsepower. MJ- and MJS- models for working in conditions where light weight and durability are paramount. For more demanding conditions and for bigger tractors MJHS- and MJFS- models are the right choices. MeriCrushers can be equipped with a patented sizing screen, which enables excellent crushing results in every condition.

All PTO-driven MeriCrushers are equipped with Suokone patented POC-safety clutch. Heavy duty transmission lines are designed up to 700 hp.

MERICRUSHER MODELS	Power range (hp)		Rotor diameter mm	Rotor width mm	Working depth range mm
	min	max			
MJ	50	150	400	1350-2250	0-200
MJS	120	300	500	1900-2400	0-300
MJHS	200	700	600	1200-3100	0-350
MJFS	280	700	800	2400	0-400
MC4 (hydraulic)	100-160l/min at 240bar		400	1350-2250	0-200
MC5 (hydraulic)	130-200l/min at 240bar		500	1900	0-250

VERSATILE MERICRUSHERS FOR: LAND CLEARING >>> SOIL RECLAMATION >>> FARM LAND CLEARING >>> FORESTRY CLEARING >>> STUMP CRUSHING >>> PLANTING FURROW TILLING >>> PROPERTY CLEARING >>> ICE REMOVAL

MJ clearing forest after logging

MJS crushing stumps after logging

MJS clearing new farmland after logging

MJHS reclaiming soil after logging

MC4-Hydraulic reclaiming soil

MC4-Hydraulic crushing ice and hardpacked snow

MJHS reclaiming soil for farming

MERICRUSHER MJHS + MJFS models can be equipped with patented ROTA screen

MJHS in land clearing

MJFS clearing the construction site

MC4-Hydraulic mounted to excavator

MC5-Hydraulic mounted to compact loader

MERISTUMPER

Versatile stump crusher and planting furrow tiller.
Ideal for small and medium size tractors up to 300hp.

MJH-0.8 is equipped with dual double row chain drives, while MJH-1.2 series feature single or dual G-series gear transmission.

MERISTUMPER CRUSHERS	Power range (hp)		Rotor diameter mm	Rotor width mm	Working depth range mm
	min	max			
MJH-0.8	50	150	600	740	0-300
MJH-1.2	100	300	600	1110	0-300

MERITRACTOR

Equipped with mechanical power take-off is the most efficient crawler tractor in the market. The MT 700 can operate under conditions where conventional tractors lose power and traction. Thanks to adequate engine power, and a mechanical power take-off, the MT 700 enables quicker, more efficient operations at a lower cost per hectare.

MT-700 with steel tracks and MJHS-2.4 meter crusher clearing dense vegetation. Crusher is equipped with heavy-duty push bar and sizing screen.

MT-700 with rubber tracks and MJHS 3.1 meter crusher reclaiming soil after harvesting before replanting
